EDUCATION

Guru Gobind Singh Indraprastha University

B.Tech in Computer Science and Engineering | CGPA: 9.45/10.0

Aug. 2025 – Aug. 2029

New Delhi, India

Shanti Gyan Niketan School

Senior Secondary (Class XII)

2025

New Delhi, India

EXPERIENCE

Shanti Gyan Niketan School

Head Boy

Apr. 2024 – Mar. 2025

New Delhi, India

- Elected Head Boy; managed **Rs. 50,000+ fund** for the annual fest, handling vendor negotiations and budget allocation
- Led a team of 30+ students across logistics, design, and events; previously served as **Deputy Head Boy** in Grade 11

PROJECTS

Decodex | [GitHub](#) | *React 19, TypeScript, Express, PostgreSQL, Redis/Bull, Whisper, GPT-4o-mini*

2026

- Built a full-stack **AI dyslexia-diagnostic reading platform** that transcribes student read-alouds (Whisper), aligns transcripts to source text via **Needleman-Wunsch DP**, and classifies errors against the **Orton-Gillingham taxonomy** using a GPT-4o-mini JSON-mode pipeline
- Designed an **async Redis/Bull job pipeline** with an Opossum **circuit breaker** around all OpenAI calls, degrading to a deterministic rule-based classifier on provider failure so 100% of sessions still return results
- Implemented **consent-gated, relationship-verified RBAC** (student/teacher/parent/admin) with IDOR guards on every endpoint, bcrypt (cost 12) + httpOnly JWT auth, and a 30-day consent-withdrawal data-erasure flow; shipped with CI and an 8+ test backend suite

NoBroke | [GitHub](#) | *React, Tailwind CSS, FastAPI, Python, Gemini API, Recharts, jsPDF*

Apr. 2026

- Built a **Gen Z money-control platform** that detects spending leaks, assigns behavioral archetypes, generates a 0–100 Money Health Score, and creates personalized 30-day AI recovery plans
- Implemented a **simulated UPI transaction analyzer** for merchants like Swiggy, Zomato, Netflix, Uber, and Myntra, categorizing spend across 5 leak categories with projected savings, Recharts dashboards, and PDF reports

FlowPulse | [GitHub](#) | *React, Vite, FastAPI, Python, OpenRouter, Claude API, Leaflet.js*

Apr. 2026

- Built an **AI business intelligence dashboard for Indian SMEs** covering 5 high-growth sectors with Rs. 2.5L Cr+ combined FDI data across 10 states, plus a weighted 0–95 **SME Readiness Score** auto-matching users to schemes (PLI, CGTMSE, Udyam) with loans up to Rs. 5 Cr
- Integrated a **Claude AI co-pilot** via OpenRouter with a custom system prompt enforcing Indian context and sub-300-word actionable advice

Solar AI | [GitHub](#) | *Python, Flask, Gradient Boosting, Scikit-learn, NumPy, Pandas*

Feb. 2026

- Trained 4 ML models on 5,000 samples with 33 engineered features; **Gradient Boosting achieved Test $R^2 = 0.9950$, RMSE = 0.0036**; deployed on Render with live weather API, PDF reports, and an ROI calculator

CERTIFICATIONS

Alpha – DSA with Java | Apna College

Intensive Java DSA course covering arrays, linked lists, trees, graphs, recursion, and dynamic programming

2025

SKILLS

Programming Languages : Java, Python, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks & Tools : React, React Native, Express, FastAPI, Flask, Node.js, Scikit-learn, NumPy, Pandas, PostgreSQL, Redis, Git, GitHub, Firebase

Languages : English (Fluent), Hindi (Native)
